[www.kbc.be/investment-legal-documents](http://www.kbc.be/investment-legal-documents) or [www.cbc.be/documentation-investissements](http://www.cbc.be/documentation-investissements) - call +32 78 152 153 (NL)/ +32 78 152 154 (FR KBC) / +32 81 80 18 80 (FR CBC)/ +32 78 353 137 (EN) for more information.

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising KBC Asset Management NV in relation to this Key Information Document. This product is authorised in Luxembourg.

KBC Asset Management NV is authorised in Belgium and regulated by the Financial Services and Markets Authority (FSMA).

Date of publication: 16 February 2024

## What is this product?

### Type

This product is a fund. Capitalisation is a shareclass of the sub-fund Capital Fund, a sub-fund of the open-ended investment company governed by Luxembourg law, KBC Bonds. This open-ended investment company does fulfil the requirements of the UCITS Directive (\*).

### Term

Unlimited

### Objectives

KBC Bonds Capital Fund aims to generate a return by investing at least two-thirds of its assets across a range of corporate and/or government bonds denominated in various currencies.

No more than one-quarter of the fund's assets are invested in convertible bonds and bonds with warrant. The fund may invest in 'closed' bond markets or bond markets to which private individuals have limited access.

The fund may invest its assets in money market instruments (up to one-third), in bank deposits (up to one-third) and/or in shares and other units (up to one-tenth).

The fund invests at least 75% of its assets in bonds and debt instruments with an investment grade\* credit rating\*, i.e. at least BBB-/Baa3 (long term), A3/F3/P3 (short term) from Standard & Poor's or an equivalent rating from Moody's or Fitch and/or in government bonds issued in local currency that have not been rated by the aforementioned agencies, but the issuer of which has been rated as investment grade by at least one of these agencies.

The fund invests no more than 25% of its assets in bonds and debt instruments that have a credit rating below investment grade or that have not received a rating from the aforementioned agencies.

The sub-fund will not invest in distressed and defaulted securities.

The asset manager will do everything possible to achieve the fund's objectives by making timely investments and temporarily hedging the exchange rate and interest rate risks.

The fund is denominated in Euro.

The fund's reference index is 50% JPM EMU IG, 15% JPM GBI Japan, 5% JPM GBI UK, 30% JPM GBI US. The fund has the objective of outperforming the reference index. For detailed information on the index, see [www.jpmorgan.com](http://www.jpmorgan.com), [www.jpmorgan.com](http://www.jpmorgan.com), [www.jpmorgan.com](http://www.jpmorgan.com), [www.jpmorgan.com](http://www.jpmorgan.com).

The fund is actively managed and does not set out to track the benchmark index. The benchmark is used for measuring the fund's portfolio in terms of performance and for portfolio composition. The majority of the fund's bond holdings will be components of the benchmark. The manager may use discretionary powers to invest in bonds not included in the benchmark index in order to benefit from the sub-fund's specific investment opportunities.

The sub-fund's investment policy restricts the extent to which the portfolio holdings may deviate from the benchmark. This deviation is measured by means of the tracking error, which indicates volatility in the performance difference between the sub-fund and its benchmark. The expected tracking error is set at 0.75 %. Investors should be aware that the actual tracking error may vary depending on market conditions. A fund that deviates less from the benchmark is less likely to outperform it.

The fund reinvests any income received in the manner set out in the prospectus (for more details, see section 13 of the information concerning this sub-fund in the prospectus).

### Practical information

The custodian of KBC Bonds is Brown Brothers Harriman (Luxembourg) S.C.A.

You can obtain a copy of the prospectus and the most recent annual and half-yearly report in French or English free of charge from any branch or agency of the financial service provider(s):

- Brown Brothers Harriman (Luxembourg) S.C.A.

or KBC Asset Management NV (Havenlaan 2, 1080 Brussels, Belgium) or via the following website: [www.kbc.be/kid](http://www.kbc.be/kid).

The details of the up-to-date remuneration policy, including but not limited to, a description of how the remuneration and benefits are calculated as described under point 18.4 of the prospectus, can be consulted on following website : [www.kbc.be/investment-legal-documents](http://www.kbc.be/investment-legal-documents) (Remuneration Policy) and is available free of charge from any branch or agency of the financial service provider KBC Bank NV or KBC Asset Management NV.

You can find the most recent net asset value\* at [www.kbc.be/retail/en/investments/net-asset-values/value.html](http://www.kbc.be/retail/en/investments/net-asset-values/value.html). You can read all other practical information at: [www.kbc.be/kid](http://www.kbc.be/kid).

This key information document describes **Capitalisation**, a shareclass of **Capital Fund**, a sub-fund of the open-ended investment company (sicav)\* under Luxembourg law KBC Bonds.

The prospectus and periodic reports cover all sub-funds of the open-ended investment company.

Each sub-fund of KBC Bonds should be considered as a separate entity. Your rights as an investor are restricted to the assets of the sub-fund. The obligations of each individual sub-fund are covered only by the assets of that sub-fund.

You may exchange your investment in units in this sub-fund for units in another sub-fund. You can find more information about this in section 9.3 of the prospectus. Orders for fund units are executed daily (for more details see section 9 of the information concerning this sub-fund in the prospectus).

## Intended retail investor

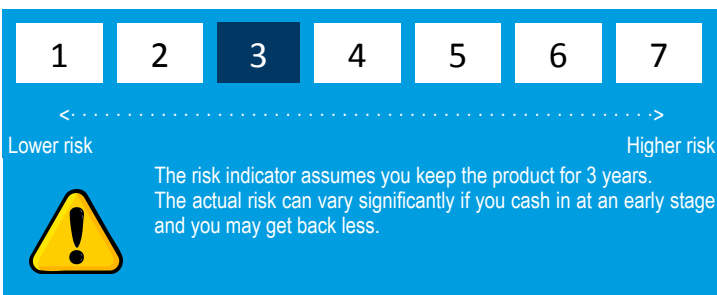

The product is aimed at retail investors who want to build up wealth and have an investment horizon of around 3 years.

These investors are willing to take a certain amount of risk for a potentially higher return and can bear losses under adverse conditions.

These investors have at least a basic knowledge of and/or experience with investing.

## What are the risks and what could I get in return?

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class.

3 is typical for bond funds, which tend to have an indicator of 2 or 3. Bond funds are generally less sensitive to the markets than equity funds, which tend to have an indicator of 4 or even 5 in some cases. The value of bond funds is especially sensitive to changes in interest rates, since the interest on these bonds is fixed in advance and does not go up when market rates increase. If rates go up, the value of the bonds already in the fund will fall.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Moreover, an investment in this fund involves:

- a moderate level of inflation risk: there is no protection against an increase of the inflation.
- a high level of exchange rate risk: since there are investments in securities that are denominated in currencies other than the Euro, there is a considerable chance that the value of an investment will be affected by movements in exchange rates.
- a moderate level of credit risk: the assets are primarily - but not exclusively - invested in bonds with an investment grade rating. Consequently the risk that an issuer can no longer meet its obligations is higher than in an investment that consists only of bonds with an investment grade rating. If investors are in doubt about the creditworthiness of the issuers of the bonds, the value of those bonds can fall.

There is no capital protection.

### Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 3 years

Example Investment: 10 000 EUR

If you exit after 1 year

If you exit after 3 years

### Scenarios

Scenarios		If you exit after 1 year	If you exit after 3 years
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b> Average return each year	<b>7 290 EUR</b> -27.10%	<b>7 440 EUR</b> -9.39%
<b>Unfavourable</b>	<b>What you might get back after costs</b> Average return each year	<b>8 340 EUR</b> -16.60%	<b>7 770 EUR</b> -8.07%
<b>Moderate</b>	<b>What you might get back after costs</b> Average return each year	<b>9 600 EUR</b> -4.00%	<b>10 020 EUR</b> 0.07%
<b>Favourable</b>	<b>What you might get back after costs</b> Average return each year	<b>11 580 EUR</b> 15.80%	<b>11 950 EUR</b> 6.12%

Unfavourable scenario on 3 years or less: This type of scenario occurred for an investment between November 2020 and October 2023.

Moderate scenario on 3 years: This type of scenario occurred for an investment between January 2015 and December 2017.

Favourable scenario on 3 years: This type of scenario occurred for an investment between January 2014 and December 2016.

## What happens if KBC Asset Management NV is unable to pay out?

Because you invest directly in the fund, the failure of the Management Company, KBC Asset Management NV, to make distributions (for example, due to insolvency) would have no direct consequences on the ability of the fund to make distributions.

In the event that the fund itself fails to make distributions, you may lose your investment entirely. The fund is not covered by any compensation, guarantee scheme or any other form of investor guarantee.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10 000 EUR is invested.

	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	<b>447 EUR</b>	<b>641 EUR</b>
Annual cost impact (*)	4.5%	2.1% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.2% before costs and 0.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the product may charge: 2.50% of the amount invested. This person will inform you of the actual distribution fee.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	Max. 2.50% of the amount you pay in when entering this investment. This includes distribution costs of max. 2.50% of amount invested.	250 EUR
<b>Exit costs</b>	Max. 1.00% of your investment before it is paid out to you.	100 EUR
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	0.90% of the value of your investment per year. This is an estimate based on actual costs over the last year.	90 EUR
<b>Transaction costs</b>	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	7 EUR
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees</b>	There is no performance fee for this product.	0 EUR

## How long should I hold it and can I take my money out early?

### Recommended holding period: 3 years

Given the investment strategy of this product, we recommend holding on to this product for 3 years or longer. The holding period is determined with the aims to reduce the timing risk when entering and exiting the product, and to ensure sufficient time for the underlying assets to recover in case of unfavourable market conditions. According to our estimates, the probability of getting a positive return is higher when you hold on to the recommended holding period or longer. You can exit this product before the recommended holding period, but in that case the probability of getting less back than the initial investment is higher.

## How can I complain?

For complaints about the product or the conduct of the manufacturer or person selling or advising on the product, your intermediary is the first point of contact. If you cannot reach agreement, you can contact [klachten@kbc.be](mailto:klachten@kbc.be) Tel. 016/ 43 25 94, Brusselsesteenweg 100 3000 Leuven, or [gestiondesplaintes@cbc.be](mailto:gestiondesplaintes@cbc.be) Tel. 081 803 163, Avenue Albert I 5000 Namur or [ombudsman@ombudsfin.be](mailto:ombudsman@ombudsfin.be) Tel. 02 545 77 70, North Gate II, Koning Albert II-laan 8 bus 2 1000 Brussels. You can find the complete complaints procedure at [www.kbc.be/suggestion-or-complaint](http://www.kbc.be/suggestion-or-complaint) or [www.cbc.be/suggestion-ou-plainte](http://www.cbc.be/suggestion-ou-plainte). However, you always retain the right to initiate legal proceedings.

## Other relevant information

Detailed information on this product and the associated risks can be found in the documentation relating to the fund. Be sure to read this information before signing up. You can obtain the information free of charge from your intermediary. You can find information about the past performance of this product during the past 10 years in the past performance information document on the following website: [www.kbc.be/fund-performance](http://www.kbc.be/fund-performance). You can find previous performance scenario calculations on the following website: [www.kbc.be/fund-performance](http://www.kbc.be/fund-performance).
